

## NeuChat Instant Messaging

Instant messaging (IM) and Peer-to-Peer technologies represent one of the fastest-growing markets for all business and service providers. With IM rapidly becoming integrated with corporate applications, the market for related services and software is expected to double in size every 9-12 months for the next three years.

The majority of interactions in the workplace are quick exchanges of information such as updates, questions, and escalations relating to services. Using the power of real-time communication, Enterprise IM Services enable employees to immediately learn the availability status of a colleague, while benefiting from fast, highly valued communications wherever and whenever they are needed. These quick and coordinated exchanges also increase opportunities for collaboration and boost employee connectivity such as:

- ❑ **Enables agility** - instant messaging enables teams and individuals to quickly capitalize on opportunities with rapid, coordinated responses
- ❑ **Reduces latency** - where time is critical instant messaging can reduce the time it takes to seize opportunities or make course corrections
- ❑ **Coordinates geographically dispersed teams** - instant messaging can span time zones and geography to facilitate communication
- ❑ **Improves productivity** - with instant messaging employees can handle multiple conversations concurrently even when they are on the phone or in a meeting
- ❑ **Delivers ROI** - lowers e-mail volume, reduces telephony costs and time spent checking voice mail

*It's YOUR Company. YOUR website.  
YOUR Web Presence.*

*Why use another vendor's name?*

You've worked hard. You've crafted a web site that's second to none. But the traffic still isn't as high as you would have thought.

- ❑ The "presence" is fine, but.... where's the sense of community?
- ❑ You may have a wonderful site, but the simple fact of the matter is... without the tools to keep your users coming back, your traffic isn't what it should be.
- ❑ Bring the pieces together. Turn it into something of **VALUE**.

*Inject new LIFE into it NOW!!*

Neunet Solutions can provide you with branded versions of Enterprise NeuChat IM bearing YOUR logo, YOUR chat rooms, YOUR news content, and YOUR audio and video content! And best of all, you can distribute these products to your visitors **ROYALTY-FREE**, representing them as your OWN products... because they BECOME your products, each uniquely catered to match your site.

We deliver an INTERACTIVE collaborative product that looks, to the outside world, as though your own in-house staff developed it... tailored to fit your business requirements for a WHOLE lot less than you might think! We provide packaged pricing for various sectors (e.g., non-profit, Education, Healthcare, and more) that includes customization, upgrades and maintenance services.

IM saves you money by reducing e-mail by 30 to 40 percent, reduces voice-mail by 10 to 15 percent, and virtually eliminating crossed e-mails and missed voice messages. IM can even reduce the cost of phone calls, especially international ones.

Face it - most web sites are little more than electronic brochures. Sure, your visitors can view pictures and text, but there's a whole WORLD of interactivity waiting on the other side! Turn your resellers, customers, vendors and one-time visitors into frequent fliers. Keep them coming back! Begin building a sensation of a COMMUNITY!
